

*"From wild animals, these hides
are so close to nature you can
sense the earthy aliveness, feel it
like the comfort of a hug,
decadently supple."*

Refined. Natural. Fantastical.

M. RENEE

QUEEN COAT

THE DESIGNER

M started sewing clothes as a child since what she desired to wear wasn't in stores, learning the technical skills to create her vision. Growing up in rural Louisiana with a self-directed education shaped both her technical independence and creative perspective.

In her 20s, everything changed when she made a leather garment as part of a Mardi Gras costume in New Orleans. She loved it, surprised by joy as it became *more beautiful with wear instead of breaking down*—timeless, practical, and expressive.

Strangers repeatedly approached to ask where they could buy what she was wearing. That organic demand birthed this venture.

M. Renee Designs, Est. 2014.
